CLEANING UP OUR ACT!!!!

After some experimenting with various equipment and plant maintenance methods such as dry ice blasting and use of chemical cleaners, we have made progress improving the interior of the plant. With the help of employees, Jarrod Schreyer and Terry McMichael, working downtime weekend shifts, the orange line area has been brightened up. Terry and Jarrod will be working their way through the rest of the plant as the year progresses. This will be an ongoing project of continuous improvement in the areas of preventive maintenance and lean manufacturing, creating a better work environment to improve quality and efficiency.

Congrats to more AFI employees!

Teresa Stevens

More Kaizen winners AFI can brag about. We are worse than Grandmas with their Grandchildren aren't we? But really, we appreciate all the work our employees do daily, and the Kaizens make life easier at AFI. July's winner was Teresa Stevens winning a Viking's tailgate package (meat NOT included) (pictured left). August's winner was Jess McCanna (pictured right) winning \$25.00 cash.
